FYI... George Washington's Dentist

Paul Revere was one of George Washington's dentists and worked on him before he had his famous "false teeth". During his life, Washington had nine different dentists. Even his physician extracted teeth for him. His dentists made him many sets of false teeth. Many of his dentures were uncomfortable. One dentist was able to make teeth for Washington that were comfortable. He became his favorite dentist. His name was John Greenwood.

John Greenwood would make four sets of teeth for George Washington and none of them would be made from wood. They were carved from hippopotamus ivory and elephant ivory. Sometimes the teeth were set in gold. His dentures had gold springs to hold the upper and lower teeth together. ■

The Latest News...

Welcome To Our New Office Manager

Many of you are aware that Bethany, our Office Manager, has been fighting cancer. In August, she decided to take a leave of absence to continue her treatment. Kim Wiltcher has joined our staff as Office Manager. She has over 10 years of dental experience and has extensive insurance/billing experience. She enjoys working in her yard and spending time with her husband, Larry. She has one son and a step daughter. Kim looks forward to meeting all of you! ■

Cranberries?

Tart little cranberries contain antioxidants that take a bite out of tooth decay, dental researchers report. Dr. Hyun Koo of the University of Rochester and colleagues at Rutgers say cranberries are rich in the flavonoid compounds quercetin and myricetin, which can protect teeth against Streptococcus mutans, the bacteria chiefly responsible for cavities. ■
